

BOUGHT A PLAIN GOLD BAND RING

Significant Feature in Disappearance of Miss Helen Fifield.

NO CLUE IS FOUND

Not a Trace or Sight Anywhere of the Missing Young Woman.

RUMORS ARE PLENTY

Chicago, June 21.—The local police up to two o'clock had not found Miss Helen Fifield. She was traced this morning to a home hotel where she had registered as Mrs. Daisy Taylor but left because the proprietor refused to give her a key to her room. From that place all trace of her was lost.

The mystery surrounding the sudden disappearance of Miss Helen Fifield seems to grow darker as the time goes by. No trace of her that can be run down with any good results can be found. She has vanished as completely as if the earth had opened up and swallowed her.

Her parents and family are prostrated with grief over her disappearance and the agony of suspense which attends it. They have made a thorough examination of all her personal property and can find nothing missing outside of the skirt, slippers and dressing sack and a gold pin that she used to pin up the front of her dress with.

Never Seemed Happier

They say she was never in a happier frame of mind than on Wednesday evening when she returned from Mrs. Jeffris' party. She laughed and talked about it after she returned home for an hour with her mother and sister Catherine and also talked with her sister after she had retired and seemed to be perfectly happy and without a care on earth.

An inquiry about town has developed the facts that she drew her money from the First National Bank Wednesday morning. She went to Archie Reid & Co's store about eleven o'clock and asked for a black veil which she bought and took with her.

Bought Plain Gold Ring

She visited F. C. Cook & Co's jewelry store about 11:30 and asked to be shown some plain gold rings suitable for a boy about twelve years of age. Mr. Cook showed her a tray of children's rings and after looking them over and not finding what she wanted he showed her another tray of large rings. She seemed to know just the size she wanted and finally selected a flat gold band that weighed three penny weights and worth \$3.75. Mr. Cook showed her another ring at the same price but she said this one would do and handed him a \$5 bill in payment.

Purchases at Drug Store

She visited J. P. Baker's drug store and purchased a tooth brush and comb and at A. A. Schmidley's ladies' furnishing store she bought some underwear.

All of these things are missing from home except the tooth brush which was left in the bath room. She also bought a pair of new shoes some days ago from C. C. Bennett's shoe store. Although she took very little from home she seems to have a fair supply of clothing. She had a small grip to carry away what toilet articles she needed.

DR. PEARSON HAS GIVEN \$3,100,000 SIX MORE COLLEGES ON HIS LIST

He has Made Public More Proposed Benefactions to the Amount of \$275,000—Will Not Tell How Much He Has Still Left.

Chicago, Ill., June 21.—Dr. D. K. Pearson's today made public the following college pledges due by Jan. 1, 1902: Illinois college, Jacksonville, \$50,000; Whitman college, Walla Walla, \$50,000; McKendree college, Lebanon, Ill., \$50,000; Bethany college, Lindsborg, Kan., \$25,000; Fairmount college, Wichita, Kan., \$25,000; Drury college, Springfield, Mo., \$25,000. Total, \$275,000. This is the official list of gifts to the struggling colleges which Dr. Pearson proposes to make before the end of the year. In addition there are one or two other promises which will make the total \$350,000 in round numbers. He expects that all but one will meet his requirements and that he will start with a clean slate in the year 1902. College presidents and friends of education have been secretly curious to know approximately how much of the original fortune Dr. Pearson has left, and what the chances are for

It is almost certain that she was the young lady who took the 4:30 train on the Northwestern yesterday morning for Chicago as many things that occurred brought her to the attention of Ticket Agent Dilts, Conductor Robbins and brakeman Jackson.

Bought Her Ticket

Night Officer Bencke had a case on hand and was told by a man who had some trouble with a girl living here to see that she did not get away from the city on the early morning trains. At ten minutes past four Officer Bencke telephoned Agent Dilts and asked him if he had sold a ticket to Chicago to a girl for the 4:30 train. Dilts told him no. About ten minutes afterwards a young lady wearing a heavy black veil appeared at the window and asked for a ticket to Chicago. She stood at one side of the window almost out of sight of the agent and reached her hand around to the opening and handed him a \$5 bill in payment. When he handed her her change he tried to get her around where he could get a good look at her but was not successful.

Saw Her on the Street

Night Officer Ed. Smith and Edw. Dermody had walked up to Holt's hotel to call Mr. Holt. After making the call they saw it was near train time and went on towards the railroad track. As they neared the track close to McGiffin's warehouse they saw a small woman coming down Academy street carrying a small grip. She was about opposite Rudolph's warehouse when they first noticed her. Her heavy black veil made her look like a colored girl and Dermody remarked to Smith: "I wonder where the Coon is going so early?"

When she reached the end of the platform opposite them Smith said: "You are mistaken. That is a white girl." They then both noticed she had on a black veil but had dark wavy hair. She went up the platform into the station and they paid no more attention to her.

Since then Mr. Smith has stated that he is almost certain that it was Miss Fifield that he saw as she answered the description of the girl he and Dermody saw yesterday morning.

Conductor Recognizes Photo. Conductor Robbins was shown her photograph last night and said at once that it was the likeness of the girl he took to Chicago yesterday morning.

He said that she had on a dark sailor hat and a light colored veil. She sat very low down in the seat and kept her head down whenever he came near her and that made him all the more anxious to see how she looked but he could not get a good look at her. He is certain he carried her to Chicago.

Brakeman Jackson also noticed her and is certain she had on a dark sailor hat and a light veil and carried a grip. She went through to Chicago.

After she arrived at Chicago all trace of her seems to have vanished. Disappeared in Chicago.

The woman that was reported at the Union station was carried to the Home hotel and registered as Miss Taylor. She only remained about an hour and then left and she has also disappeared. District Attorney Jackson went down to Chicago last evening and returned at 12:45 last night. He said the St. Paul and the Northwestern detectives were doing all in their power to trace the girl and the entire day force was working on it.

Sheriff Matpress, Dr. George Fifield and H. R. King remained in Chicago to prosecute the search and render the detectives any aid possible. In the meanwhile in this city the search is being carried on and every possible clue that may develop anything is being run down, but so far without success.

ENORMOUS CROPS ARE ASSURED OUTLOOK ROSY IN THE NORTHWEST

Reports from Many Points in Minnesota and the Dakotas Show that the Condition of Small Grain Was Never Better Than at Present.

St. Paul, Minn., June 21.—Reports from something like 600 grain producing and grain receiving points in Minnesota and the Dakotas agree in the common verdict, to wit, the condition of small grain in the Northwest was never better than now; the stalk is strengthened and the soil saturated to withstand any drought that July may produce, and unless some unknown enemy arises in the next thirty days we shall harvest a heavy if not a record breaking crop.

After a trip through the grain belt stretching from the Twin cities to the Canadian boundary at Portal, N. D., General Manager Pennington of the Soo says:

"Stated in a nutshell, the crop condition of the Northwest was never better than it is today. Moisture, temperature, color, stand and health of growth are perfect.

"Taken as a whole conditions were never better at this stage of the crop than they are today. The soil in North Dakota and Northern Minnesota now has all the water it needs and can take care of. So far there is no danger of rust and with continuous rain we do not anticipate any. The prospect now is for a crop fully up to those of 1898 and 1899. We do not predict a bumper crop, but there is every condition necessary for a good crop.

"Many enemies of the crops are not due yet such as hot winds and rust, although we do not suffer much from them. North Dakota last year had about 50 per cent of a crop, and Minnesota little better. There is now every prospect of a wheat crop of 200,000,000 bushels for the three states of Minnesota, North and South Dakota."

HARMONY IN RANKS OF G. A. R. DEGROFF WILL BE SATISFACTORY

Stevens Point Selected for the Place to Hold Next Year's Encampment—Contest Over the Veteran's Home—W. R. C. Officers Elected.

Sheboygan, Wis., June 21.—The election of Allen H. Degroff for G. A. R. department commander has proven satisfactory to the veterans. It is conceded that he will make one of the best heads that the department has ever had. George W. Morton of Berlin defeated Col. E. O. Kimberly of Janesville for junior vice by a vote of 119 to 44.

After a warm fight between Wauwapa, Mineral Point, Milwaukee and Stevens Point, the latter was selected as the place for holding the next annual encampment.

The contest over the Wisconsin veterans' home was renewed again last evening. The resolution to prohibit the election of a member of the board of trustees to succeed himself was voted down, and Joseph H. Woodnorth, who has served thirteen years on the board was elected for another term.

Resolutions Adopted. For the first time in the history of the Grand Army in this department the committee on resolutions had no work to perform. There were no members who sought to immortalize themselves in this direction and Judge E. W. Keyes, chairman of the committee, reported that they had found no material to work on.

The delegates and alternates to the national convention from the First district elected are as follows: S. W. Osborn, Burlington; alternate, Joseph Thompson, Brodhead.

The members of the council of administration named are: F. A. Copeland of LaCrosse; David Harris of Milwaukee; B. T. Williams of Wautoma; F. M. Mason of Rhineland; J. W. Thomas, trustee of the encampment.

Women's Relief Corps Officers

The Woman's Relief Corps elected Mrs. Harriet M. Welton of Madison president, Mrs. Laura Dietrich of Sheboygan, senior vice president, Mrs. Frances Wheelock of Medford junior vice president, Mrs. Phillips of Fond du Lac chaplain and Miss Fannie McAllester of Omro treasurer.

The ladies of the G. A. R. elected the following officers: President, Mrs. Irene W. Jones of Milwaukee; senior vice president, Mrs. Dora Snyder of Ashland; junior vice president, Mrs. Amanda Sampson of Sheboygan; treasurer, Mrs. Jean Rogers of West Superior; chaplain, Mrs. Shickles of Ashland; delegate to the National convention, Miss Eleanor Mueller of Milwaukee; delegate at large, Mrs. Brezel of Omro.

The officers elected by the Sons of Veterans are: Colonel, Martin Grasse of Milwaukee; senior vice commander, F. Merrifield of Plover; junior vice commander, A. H. Calender of Racine; delegates to the National encampment, Gus Gelsler of Sheboygan; delegates at large, Dr. McDowell of Racine; alternate delegate, Oscar Culbert of Blaine; alternate delegates at large, W. W. Rietz of Milwaukee.

ENORMOUS METEOR FALLS IN DAYLIGHT EXERCISES CLOSE WITH ALUMNI BALL

Expedition Forming at Tucson, Ariz., to Hunt for a Celestial Visitor Seen on June 11.

Tucson, Ariz., June 21.—An expedition is being organized to secure, if possible, a huge meteor which is reported to have fallen forty miles from Altar, Mex., and 120 miles from this city.

The meteor fell on June 11, and was plainly seen here speeding toward the southwest.

Today El Progresso, a Spanish weekly published at Altar, Sonora, Mex., was received, with the story that a meteor had fallen between the Pueblos of Los Molinas and Altar on the morning of June 11. The paper stated that he meteor was buried in the desert and that a great hole was made where it struck.

Seen from Tucson the meteor seemed to burst when it reached the horizon and to shoot off into thousands of strings of fire.

HOMEOPATHS NAME THEIR OFFICERS

Dr. J. C. Wood, of Cleveland, Made President and Dr. Chas. Gatchell, of Chicago, General Secretary.

Richfield Springs, N. Y., June 20.—The annual election of officers in the American institute of homeopathy which held its fourth day's session here today, resulted as follows: President—Dr. James C. Wood of Cleveland.

Vice President—Dr. Edward Beecher Hooker of Hartford, Conn. Treasurer and Recording Secretary were re-elected.

Dr. Wood the new president, is professor of Gynecology in the Cleveland and a member of several foreign societies.

GEN. BOTHA WILL IGNORE KRUGER

Peace Negotiations with the Boers on the Field and with the British Government.

London, June 21.—The Evening Sun this afternoon says that emissaries who have been in communication with Kruger from Sanderton, Transvaal, have delivered to General Botha Kruger's reply concerning peace negotiations. The answer will be the most momentous and of vast importance as affecting the South African situation.

Negotiations for a total cessation of hostilities have been in progress some time the Sun says. Negotiations regarding them have passed between Kitchener and the war office the past two days. Botha and his chief commanders, the Sun says, after paying due homage to Kruger and his opinions decided to act on their own initiative, and surrender.

Has Botha Surrendered? London, June 21.—The Evening Sun announces this evening that it is reported that Botha has surrendered.

MANY STARVING AT JOHANNESBURG

New York, June 21.—Adolph Levi arrived from Johannesburg, Transvaal, says that the war has almost completely devastated that city. It now has only twenty thousand inhabitants whereas before the war it had a quarter of a million. Many are starving.

WHITNEY WINS ON ENGLISH TURF

London, June 21.—W. C. Whitney's American bred colt Kilmarnock Second today won the Alexandria Plate at Ascot. He also captured the Windsor Castle stakes with Mount Vernon. Lester Rieffe rode both.

BARKER IS FOUND GUILTY BY JURY

Jersey City, June 21.—Barker was found guilty this afternoon with assault with intent to kill. The maximum punishment is seven years. The jury was out fifteen minutes.

Death by Hands Unknown

Shreveport, June 21.—Death at the hands of unknown parties was returned in the cases of Prophet Smith and F. G. McLand, negroes lynched Wednesday night for alleged complicity in the Foster murder.

War Activity in Turkey.

Vienna, June 21.—A sudden outbreak of military activity in Turkey is reported. Turkey, it is said, suspects Italy of having designs on Albania and is also fearful of anti-Turkish agitation in Serbia and Macedonia.

Admiral Hoskins Dead.

London, June 21.—Admiral Anthony Hoskins well known in naval circles, is dead.

Fight Ends in Death.

New Orleans, La., June 21.—Walter Selph, a young drummer, son of Colonel Dudley Selph, state inspector of rifle practice, and former rifle champion, was killed in a prize fight at Audubon park. He and a young man of the name of L. L. Bailey had a quarrel at a military ball, and agreed to fight it out with bare fists. They had no seconds and pounded each other until Selph fell from a blow which broke his neck. Bailey was arrested.

CIVIL RULES FOR PHILIPPINES TO ISSUE PROCLAMATION JULY 4

Judge William H. Taft Will Be Appointed Governor—Glorious Fourth to Be Celebrated Uprousely in the far Orient.

Washington, June 21.—Fourth of July next will mark an epoch in the Philippine Islands. On that day the United States will establish civil government over the islands and amid the din of fireworks and under the waving Stars and Stripes Judge William H. Taft, chairman of the Philippine commission, will be installed as the civil governor. It is the intention to mark the occasion with a remarkable display on the national holiday, the object being to sow patriotic seed among the natives.

The installation of civil rule will not, however, mean the abandonment of military control of the islands. It is understood that Judge Taft as the civil governor will be subordinate to the military governor, retaining his present office at the head of the commission, and that the administration will handle the situation so as to avoid the rulings of the supreme court in the Porto Rican case. It is probable that the other members of the commission will have charge over the various departments in the islands. The first day of August was mentioned as the earliest possible date it could be issued, owing to the difficulties that were created by the newest aspect of Philippine affairs. This was quickly found to be unsatisfactory to the Filipinos. The daily advice of Judge Taft and General MacArthur to the war department and the president were of a character to create alarm. The Filipinos, these officials have been telling upon the fulfillment of the president's promise to give them civil government and that they would fail to understand the reasons why that promise was broken.

WAR TAXES WILL EXPIRE JULY 1

Those Small in Amount, but Annoying to Individuals Go.

STILL A FEW LEFT

These Reductions and Repeals Will Cost the Government \$40,000,000 Per Year.

TO IMPOSE NEW TAXES

Washington, D. C., June 21.—On July 1 nearly all the stamp taxes will be repealed, so that from now on it will pay people to take the revenue stamp into consideration. Of course, no one would stop sending telegraph messages for ten days, or hold an express package the rest of the month to save a penny but many dollars can be saved on deeds and mortgages, and the manufacturers of proprietary articles long ago began to restrict their production in anticipation of a repeal of the tax.

Public Will Be Grateful

So far as the general public is concerned the repeal law will be chiefly grateful because the stamp taxes on bank checks, telegrams, express receipts, and money orders. These are the little taxes, small in amount but annoying to the individual. What the people as a whole will save money on will be the stamps on conveyances, mortgages, leases and bonds.

The full list of the taxes which will be repealed after next week is as follows: Bank checks, 2 cents; bills of lading for export, 10 cents; bond or obligation by guarantee company, 1/2 of one cent on each dollar; certificates of damage, 25 cents; certificates of deposit, 2 cents; certificates not otherwise specified, 10 cents; charter party, \$3 to \$10; chewing gum four cents each \$1; commercial brokers, \$20; drafts, 8 cents; express receipts, 1 cent; insurance life, 8 cents on each \$100; marine, inland, fire, 1/2 cent on each \$1; casualty, fidelity and guaranty, 1/2 cent on each \$1; lease 25 cents to \$1; manifest for custom house entry \$1 to \$5; mortgage or conveyance in trust, 25 cents for each \$1,500; order for payment of money on sight or demand; perfumery and cosmetics, 1/2 cent for each 5 cents; protest, 25 cents; telegraph message, 1 cent; telephone message, 1 cent; United States money orders, 2 cents for each \$100; warehouse receipts, 25 cents.

War Taxes Modified.

Some of the war taxes have been modified and after July 1 will be collected in less onerous form.

These reductions and repeals will cost the government \$40,000,000 a year, but there will still be left a nest egg providing about \$60,000,000 more. The theory of congress was to leave the taxes on the wealthier classes.

Besides these changes in the law there are two entirely new taxes imposed by the repeal law, which went into effect on April 1. They are: Broker, class 2, special tax in addition to all other special taxes, \$50. Bucket shop transactions, two cents for each \$100. These taxes of course, remain in force after July 1, being in addition to the list of retained taxes given above. These lists of taxes repealed, modified, retained, and new imposed will enable all individuals and firms to know just where they stand in regard to Uncle Sam after June 30 one week from next Sunday.

CUBAN PLANTERS SLOW TO CHANGE

METHODS OF RAISING SUGAR CANE IS NOT MODERN.

The Methods of Sugar Kings is Not in Symmetry with Progress—Prefer Old Conditions—Crops Promise to Be Up to Average in Spite of Obstacles.

Matanzas, Cuba, June 21.—Sugar underlies the industrial life of Cuba. The producers are also beginning to find that it also underlies the political life of the island. The potent conservative influence for the last month has been the sugar planters and the field hands. They are for peace almost at any price, and their moderation checks much radical agitation.

The crop figures for this season are encouraging enough. In round numbers the production is fixed at 600,000 tons, and this has brought not far from \$30,000,000. The payment for the crop has helped to reduce the unfavorable trade balance against the island. While the price has been fair, had it been a shade higher the production would have reached 650,000 tons, but many of the planters preferred not to grind, believing that prices will be a little better next year. The cane acreage for the coming season is about one-third larger than during the last year. It is not likely that much of the new lands which are being planted in the eastern end of the island in the belief that tariff concessions will be made by the United States will have cane ready for grinding within the next twelve months, yet there is every reason to look for a crop of 800,000 tons to 850,000 tons in the year 1902.

In the Cardenas district there are few estates which have not fully recovered, and it has happened this year that Cardenas has gone ahead of Matanzas in its shipments, but both ports have handled more than 700,000 bags, or 100,000 tons, each.

The Cuban sugar planter is aware that he is going through an industrial and a social revolution, but he does not yet grasp how thorough it is. The old paternal estates are passing away.

Are Selling Part of Lands.

Nearly every planter charges his troubles to the insurrection and is willing to recognize that even without the ravages of war he would have had to meet a subtle economic revolution. The curse of the Cuban planter always has been his greed for more land. Now, in order to save something from his estate, he is forced to sell part of it.

In the old days every great planter had to have his own "central" or mill. The pride of the planter was his mill. In the year before the insurrection the island produced nearly 1,100,000 tons of sugar, and with possibly half of the mill destroyed there are today enough remaining to grind a crop as large as that.

While this craze for the acquisition of machinery and the building of great centrals weighed the planters down almost beyond recovery, it has had a good effect in another way, for it has insured a small planter competition in grinding his cane.

Sometimes the central pays cash, but the more common method is to grind on shares. The mill takes 100 arrobas of cane, and in some instances agrees to deliver six and a quarter arrobas of sugar. An araba is twenty-five pounds. Where the small planter can secure this division he is fairly sure of a profit, because often five arrobas would give him a good return.

While the Cuban planter has learned that he does not need more machinery, and while he is content to leave some of his own mills in ruins, he still clings to the notion of an agricultural bank, as the panacea for most of his ills. The Sugar Planters' association rarely holds a meeting that this project is not endorsed. It is an alluring one, for the island is lacking in proper banking facilities. To the planter, as a rule, the agricultural bank means a semi-state institution, which would go on loaning to him on his own terms indefinitely.

In their efforts to have the mortgage extension decree further prolonged the planters were inclined to insinuate that greedy American syndicates were waiting a chance to become possessed of their property through foreclosure. After infinite patience, General Wood, with the full approval of the Washington authorities, declined to grant further extensions. The estates on which machinery and mills had been destroyed were given some special consideration in being allowed four years in which to close out their indebtedness by a series of graduated payments, but the other planters were left subject to the ordinary provisions of the law of mortgages.

New Lands Much Sought.

It has been a surprise to the distressed planters to find that no American syndicates were waiting to seize the property. It has been a revelation both to the Cubans and the Spaniards to find that the American investors, who are not yet numerous, show so little disposition to look for bargains in old plantations, preferring the undeveloped eastern provinces.

Sir William Van Horne's railway enterprise in opening up the eastern country probably has something to

do with this preference. In all the projects for new plantations in the east, a central idea obtains, which is likely to help along the revolution in the methods of sugar production. This is to diversify the products. Mr. Van Horne and his associates have definite plans of alternating fruit culture with sugar raising. A double purpose is thus accomplished. The tendency to depend on a single crop is lessened, and the proposed fruit belts serve as a barrier to extensive areas of cane being burned.

Americans who are in the island interesting themselves in the sugar industry, have not yet learned to make full allowance for the differences in the conditions of production. Even Louisiana planters at first failed to notice that their mills which ground the seven months' green cane easily, could not with the same motive power, grind the tougher fiber of the Cuban eighteen months' cane. In Cuba they have discovered that it requires one motor for each mill, while in Louisiana the same motive power might be sufficient for two or more mills.

DEATH CAME TO MR. GEORGE SKELLY

Pioneer Settler of Janesville: Passed Away Yesterday Afternoon—Funeral Sunday Afternoon.

Death came to George Skelly, a pioneer resident of this city, yesterday afternoon at 5:30 o'clock after a severe illness of less than twenty-four hours' duration. Deceased was in his seventy-fourth year and had been in excellent health until Wednesday evening when he was taken with a severe attack of colic. This affected his nervous system and he grew rapidly worse until death came.

George Skelly was born at Reamstown, Lancaster county, Pa., Dec. 27, 1827 and the family came west in 1848. He and his brother Charles were engaged in the grocery business together and were among the prominent business men of those early days. At the close of the civil war they sold out and Mr. Skelly has never engaged in active business since that time. He was never married and he made his home with his brother the late Charles Skelly and afterwards with the family of his brother, having made his home in the family for thirty-five years.

Mr. Skelly leaves two brothers, Henry and Richard Skelly and two sisters, Mrs. Amos Crall and Miss Emma Skelly. Funeral services will be held from the home of Mrs. Chas. Skelly, 14 Milwaukee avenue, Sunday afternoon at four o'clock.

MANAGER YALE WILL SEE ABOUT IT

Manager P. L. Myers of the Myers Grand theatre, writes the Gazette from Hudson, requesting, in justice to himself, the publication of a letter which he has received from Charles H. Yale, the proprietor of the "Evil Eye." The letter will explain itself but Mr. Myers adds that Mr. Yale's productions have been playing in Janesville for fifteen seasons and that this year is the first time that he has disappointed an audience. Manager Myers feels confident that in the future Mr. Yale will "make good." In reference to the "Evil Eye" Mr. Yale says:

"Dear Mr. Myers: Yours of June 10th just received. Note that the 'Evil Eye' did not give a satisfactory performance with you upon its last engagement. This is certainly a surprise to me and there is no reason in the world why they should not have given a great performance. I will see Mr. Cannon, our representative with the company, regarding this and find out if possible why such was not given. I appreciate your writing me of the fact and you can rest assured, Mr. Myers, that we are paying for the best performance that can be given of this play and there is not a reason in the world that such should not be given. Yours, 'CHAS. H. YALE.'"

BIG BLAZE IN ST. LOUIS.

Flames in a Saddlery Plant Followed By An Explosion.

St. Louis, June 21.—The J. B. Sickles Saddlery company's plant, a four-story building on the southwest corner of 21st and Washington avenues, was destroyed by fire which broke out at 1 o'clock. The fire was preceded by an explosion, which was felt for blocks. Residents of the boarding house district near the fire fled in terror after the shock.

During the fire several firemen were injured, but not seriously.

Great excitement prevailed in the neighborhood during the first few moments following the explosion. On Locust, Olive and Washington avenues boarding houses and rooming houses abound, and the occupants of these, aroused by the shock fled precipitately into the streets in their night clothes, terror-stricken at the spectacle.

Damage of the Sickles plant and adjacent property is estimated at \$200,000. It is partially insured.

The explosion, which occurred in the front part of the building, was a terrific one, shaking the buildings for blocks around and arousing people in the immediate neighborhood.

When the first companies arrived flames were pouring from the Sickles structure and shooting many feet above the roof.

Within a few minutes after the firemen had started to work on the building the flames had gained such headway that Chief Swingley saw the Sickles building was doomed and all his efforts were directed toward preventing the fire spreading to adjoining structures.

Twenty minutes later the flames leaped across 21st street to where the Reynolds Carriage company's plant is. This caught fire and burned fiercely. Louis Cella's saloon was destroyed a few minutes later. Within an hour from the time of the explosion the Sickles building was in ruins, only the front and side walls and a portion of the rear wall remaining. The flames leaped across St. Charles street to the rear of the Lambert Pharmacy company's establishment, in which was stored a large quantity of chemicals, drugs and other high combustibles and explosives. The firemen succeeded after a half hour's hard work in confining the flames to the rear of the building.

MRS. BARKER ON THE STAND.

Tells of Keller's Conduct Which Preceded the Shooting.

New York, June 21.—Mrs. Lydia Barker was the principal witness yesterday afternoon at the trial of her husband for shooting the Rev. John Keller. Mrs. Barker was placed on the stand to tell of the conduct of Keller toward her, which provoked her husband to shoot the minister. This was necessary, as Keller would not be allowed to tell the story. Her statement was highly sensational.

Only the main facts were presented to the jury, but a detailed statement was given the press in which Mrs. Barker told of a visit of Keller to her house in April, 1899. She said she faintly under Keller's attack, but was afraid to tell her husband when he returned, as she feared he would kill the preacher. Mr. Barker, she said first learned something of Keller's conduct last December and in January she made a full statement to him of the affair.

Mrs. Barker said her husband brooded over the wrong done her by Keller until the shooting took place.

Seek More Cash from China.

Washington, June 21.—Again the Shylock powers have come forward with a demand for more of China's flesh. Not content with the enormous indemnity of 450,000,000 taels which China has promised to pay, it is learned from a diplomatic source that a new proposal has been submitted to the powers contemplating the addition to this total of 7,000,000 taels to pay the expenses incurred by the maintenance of military forces in the celestial empire. This greedy conduct is looked upon with amazement. Grave doubts are entertained by the President that China will be able to pay 450,000,000 taels, and if this sum is increased it is certain that the Peking government will be unable to satisfy the instalments of the debt and that fresh complications will arise after the present negotiations are concluded.

Baptist Against Army Canteen.

Mexico, Mo., June 21.—Dr. Johnson Meyer of Chicago addressed the State Baptist Young People's Union here. The association passed a resolution with this paragraph in it: "Resolved, That we heartily commend the Congress of the United States in suppressing the army canteen and are unalterably opposed to the efforts of some government officials and army officials to reinstate the canteen, claiming to be acting in the interest of temperance."

Child Drowns in Milk. Plankinton, S. D., June 21.—The 20-months-old child of a family named Neese, living near Plankinton, while playing on a bench fell into a pail containing two inches of milk and was drowned.

CANDY ESCULETT'S CURE PILES.

SCHOOL CHILDREN HONOR OLD GLORY

Flag and Pole Raising in the Merrifield District Yesterday Draws a Great Crowd.

Fully 2,000 people were entertained by the pupils of Joint District No. 5 of Fulton and Milton, known as the Merrifield school. The event was in commemoration of a flag raising and the occasion was fittingly observed in a manner that greatly delighted the patrons and visitors. The school house and stand erected for the exercises was gaily decorated with American flags and bunting which gave the grounds a beautiful and gala appearance.

After a few remarks by Supt. Throne, the pupils of the school escorted by the A. D. Hamilton Post No. 60, of Milton; H. S. Swift Post, No. 133 of Edgerton and the W. R. C. marched to the tall flag staff erected in front of the school building where the emblem was hoisted with special exercises.

As the flag ascended the pole the Albion cornet band which was in attendance played "The Star Spangled Banner." The school then sang "Rally Round the Flag" after which the G. A. R. boys gave three rousing cheers as a salute to a banner which has never known defeat.

One could not help but note the contrast in the lusty cheer of the scarred veteran as they gave vent to their feelings in seeing "Old Glory" floating out in the air and that of the voices of the children in singing out their praises.

The scene with the assemblage circled around the flag, formed a picture long to be remembered by those in attendance. After the flag raising ceremonies a special program of an elaborate character, appropriate to the day, was rendered by the school and much credit is due to the teacher, Miss Jennie Rose, for the excellent manner in which the selections were given.

At 12:30 the school with its patrons and guests repaired to the grove adjoining where a sumptuous feast was served by the ladies of the district. At this hour, while seated along the tables, the G. A. R. boys related many interesting incidents within their army life.

It was while listening to these that Supt. Throne, with a well-filled plate of chicken, boiled ham and other good things to eat, was heard to remark, "This is a good place to be."

In the afternoon informal talks were given the children by Supt. Throne, Rev. Stephens of Edgerton and Rev. North of Milton to inculcate lessons of patriotism in the hearts of the pupils and to teach them the significance of the flag, as the emblem of liberty and truth.

The day was one of pleasure and enjoyment—a gathering together of friends and acquaintances for social intercourse and a reunion of old school mates of years ago, and is one long to be remembered.

Our stock of FANS.

Warm weather was somewhat slow in getting here this year, but we knew it would come and prepared in advance for it. How well we made it possible for people to fortify themselves against the stuffy atmosphere of an overcrowded room, the temporary discomfort brought on by too much dancing, and other situations, is shown by our unusually complete stock of Fans. We have decided novelties in large flat fans, such as palms with fancy handles and large palms made of selected stock, plain and fancy Ning Poo's, which also make excellent brush broom holders, and common palms

paper fans we have an immense variety, all white light fancy effects, and beautiful medium dark and black and white creations. A finer lot of inexpensive folding fans this store never displayed. They make dainty presents. For fancy silk and gauze fans ranging in price from 75c to \$3, here is the place to come. Large new lot just received. Beautiful styles at 1.00, 1.25, 1.50, 1.75 \$2.00. 2,000 fans to select from

Sheets and Pillow Cases

We carry them in several grades and sizes. Ours are made of old and tried brands of sheeting and will cost you only a little more than the goods by the yard. We placed an order recently for several hundred sheets and cases and bought them at a very low figure. Among other makes we carry the popular "Defender" brand, so much talked about in all the magazines. It hardly pays to make them at home now.

Bamboo Portieres, Rope Portieres.

They are well liked, especially at this season, making a cool, pretty screen for a doorway. Our showings will interest you. They do not cost much and yet the styles are excellent. During the last few days we have received about fifty of these Portieres, making a splendid variety to select from.

THE NEWS FROM COUNTY TOWNS

TOWN OF JANESVILLE.

Town of Janesville, June 21.—We have been having several very hard storms during the past week. The windmill on the A. M. Church farm was struck Sunday afternoon but no great damage was done.

Corn cultivating and tobacco setting are the order of the day. Strawberry growers have commenced to market their fruit.

Rev. Mr. Vaughn conducted services in the Rock River school house last Sunday afternoon.

An excellent program of exercises was given in the Burdick school last Friday.

Mr. and Mrs. John Dennett spent last Sunday in Milton.

Mrs. R. P. Bleasdale, Sr., who has been quite sick of late, is reported somewhat improved. Mrs. Belle Bleasdale who has been suffering with rheumatism, is better.

Mrs. Mary Tennent and daughter, Miss Grace, have been visiting with Frank Welch and family the past few days.

MILTON JUNCTION.

Milton Junction, June 21.—Quite a delegation of Woodmen and their friends, accompanied by the Junction band, went to the picnic at Freeport. The relatives of Mrs. Kate Mills assisted her in celebrating her eighty-first birthday Monday.

Mr. and Mrs. J. R. Cole, Mrs. C. O. Button and daughter, Kattie, attended Miss Berta Scofield's wedding in Janesville Tuesday evening.

Miss Ethel Sowle visited at J. B. Tracy's Wednesday.

Miss Mabel West is assisting at the telephone exchange.

Miss Jennie Thorpe attended the commencement exercises of the Whitewater High school and spent a few days visiting friends there.

This town is quite well represented at the flag raising in the Merrifield district today. There will be another held tomorrow in the Paul district.

Miss Kattie Button is home for the summer vacation.

Miss Myrtle Wauke is on the sick list.

J. B. Gallup and family have recently moved into town.

Mrs. Gertrude Newton and children visited at W. Winch's Tuesday.

There will be a lawn social given by the Ladies' Aid Society at the home of Mrs. E. W. Love on Thursday evening, June 27. Everybody is invited and everything will be done to make it an enjoyable evening. Ice cream and cake will be served to all who wish it and it is hoped that there will be a large turnout.

Mrs. Wm. Lee, who has been sick for the past week, is some better.

We are informed that Miss Minnie Davis and Mr. Keith Shaw were

married at the home of C. M. Davis in Evansville on Friday evening, June 14. We extend congratulations and may the years of their married life be long and happy.

Albert Jones of Boston, Mass., is visiting his sister, Mrs. E. M. Stebbins.

Mrs. Wm. Graves is in Evansville for a few weeks visiting with her daughters, Mrs. Searles and Mrs. Smith.

CLINTON.

Clinton, June 20.—The graduation exercises last Friday evening passed off very pleasantly. Each graduate crowned himself with honor and did credit to the school in appearance. The house was filled even standing room being occupied. The class history and class prophecy were exceptionally interesting, given by Miss Jessie Smith and Miss Katharine Tuttle respectively. The baccalaureate sermon delivered by the Rev. T. J. Parsons, Sunday evening, before a large audience was one to inspire the graduates to a high plane of living as they go out into the activities of life. The alumni's banquet was held Monday evening, at which time eighty alumni were present. Prof. R. E. Loveland was toast master, and during the evening announced that the Clinton high school is now on the accredited list of the Wisconsin University, Lawrence University, Northwestern University, and Beloit, Ripon and Rockford colleges. Miss Ethel Kemmerer spoke for the alumni. Warren Latta, class president, represented the class of 1901. Mrs. Will Hamilton responded to the toast, "After Graduation, What?" Mr. M. A. Mayhew to "Our High School From the Standpoint of Citizen." Rev. T. J. Parsons, to "Our High School Faculty" and Supt. Thorne rounded things off in good shape with some earnest remarks.

A larger number than usual from her attended more or less of the exercises held in Beloit this week, a few attending all through. Miss Dudley was the valedictorian, the first young lady carrying off first honors in Beloit college. Miss Helen Edmonds received the degree of A. M. Among those who assisted in the president's reception last Thursday evening in Beloit, were three of Clinton's young ladies, the Misses Florence J. Emily Moore and Edith Latta.

Two of the vacancies in our school force have been filled. Miss Daniels of Janesville will teach in the second intermediate and Miss Jessie Emery of Beloit, a college graduate, is assistant in the high. Vacancies yet remain.

The Clinton base ball team played the Sharon team on their grounds a good game last Friday. But the final showing proved that Sharon played a better game.

Mr. and Mrs. F. B. Helmer and Helen, returned from Buffalo very much pleased with the Pan-American exhibit. Everybody speaks well of the electric display.

Mr. and Mrs. Bird have been entertaining Mr. Clark Bird and family of late.

A small cyclone struck the barns and sheds belonging to O. C. Skopstad last Sunday. The house remained uninjured.

Dr. Covert and wife are in New York state to attend the family reunion. Before their return they will visit Buffalo.

Miss Wina Gilbert has been visiting in Pecatonica and Beloit of late. Strawberries are plentiful in this locality this year.

A number of acres of tobacco has

Cleaning House

Once or twice a year the good housewife has a thorough house cleaning. The house has been swept and dusted every day in the year, but the housewife knows that in spite of vigilance dust accumulates in cracks and corners, and is only to be removed by special effort. It's the same way with the body. You look after it every day. You take all the ordinary precautions of cleanliness and health. Yet the body needs its special cleaning to rid it of the accumulations of waste and poisonous matter which invite disease. Doctor Pierce's Golden Medical Discovery, taken regularly once or twice a year, would save many a sickness. It purifies the blood, strengthens the stomach, and cleanses the body of poisonous accumulations.

"Last spring I had a severe attack of pneumonia, which left me with a bad cough, and also left my lungs in a very bad condition," writes John M. Russell, Esq., of Brent, Ohio. "I had no appetite and was so weak I could scarcely walk. My breast was all sore with running sores. I got two bottles of Dr. Pierce's Golden Medical Discovery, which I believe saved my life. I cannot express my gratitude to you. I am able now to do very good work."

Dr. Pierce's Medical Adviser, in paper covers, sent free on receipt of 21 one-cent stamps to pay cost of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

been set out during the past week. Miss Wayne Sherwood returns to her home this week.

Mr. C. S. Johnson has been very sick for several days with appendicitis.

The Skin AN INDEX TO THE BLOOD

Millions of little glands or tubes connect the blood with the skin, and through these small drain pipes perspiration passes out, carrying with it the impurities that are thrown off by the blood. Should the pores of the skin be entirely closed for even a brief space of time, and the poisonous matter forced back into the circulation, instant death would result. In addition to the sweat glands, the skin is provided with certain others which pour out upon it an oily substance, keeping the skin pliable and soft and protecting it from heat and cold. The blood and skin are so closely related that whatever affects one seriously interferes with the functions of the other. Not only health, but life itself, depends upon perfect harmony between the blood and skin. When, therefore, the blood becomes poisoned from any cause, it quickly manifests itself upon the skin in the form of sores and ulcers, pimples and various eruptive diseases. By the character of the sore we are enabled to determine the nature of the poison or humor in the blood, as every disease originating in the blood has its own peculiar sore or pimple. The skin is not only affected by the poisons generated in the system, but poisons from without enter through the open glands or pores and quickly infect the blood. Mercury rubbed upon the skin will produce Rheumatism, and Poison Oak and Ivy and other wild plants gain easy access to the blood through the skin. As so-called skin diseases originate in the blood, the application of powders, soaps and washes can do no permanent good, but often do immense damage by closing up the outlet to these little tubes and interfering with the natural action of the skin. The treatment must begin with the blood, and the acid or other poisons antidoted or neutralized. S. S. S. does this and purifies the circulation, builds up the blood and flushes the little glands or pores with pure, new blood, and restores healthy action to the skin. The use of cosmetics never yet brought health and beauty to a rough, red, pimply skin or sallow complexion. What is needed is rich, pure blood, such as S. S. S. makes. It not only relieves you of all disgusting blackheads, blotches and irritating, itching eruptions, but improves your general health. S. S. S. contains no mercury, potash, arsenic or other mineral, but is a purely vegetable remedy and the safest and best in all blood and skin troubles. Write our physicians for advice or information; they have made a study of blood and skin diseases, and you can have the best medical advice without cost. Book on Blood and Skin Diseases free.

MUNICIPAL AESTHETICS.

Important as is the idea of beauty in the care of private lawns, it is none the less important in the care of city property. Janesville will always be grateful that so superb a building as our High school was ever put on so small a lot; how much could have been added to its grandeur had it only been set as a gem in a galaxy of color which blossoming shrubs and climbing vines give to any colored building, symmetrical in outline and imposing in dimensions.

But a lesson has been given which may be taken advantage of in the building of the new library and city hall. We may with justice to succeeding generations go farther and say no city has the right to erect buildings at the public's expense without paying some regard to this fundamental idea.

Our library and city hall ought to be the embodiment of the idea of the community, not simply in its utility but also in its artistic setting and adornment.

The river bank on the south is artistic and beautiful in spite of man's carelessness, but that on the north above the dam is anything but beautiful; the low banks should be planted with willows, the island should be utilized by the city as a public playground, surrounded by willows and laid out by a landscape gardener, like Belle Isle is the Detroit river, which affords more real pleasure and recreation to people of Detroit than all its theaters and places of amusement combined.

The railroads have of late years shown the aesthetic side of their nature, which many people have thought was entirely devoted to money making or the utility. Every year they send out their paint cars over the entire system and the weeds are destroyed, the shrubbery planted and cared for at every station; now comes the offer to beautify our own city by building a new depot. And yet the powers that be will say they nay.

Although our business streets are not capable of much in the way of adornment, yet neatness should be insisted upon, merchants should be given to understand that the sidewalk is intended for the use of the public and not as a warehouse for the piling of boxes and barrels, or the too extensive show of their wares.

To the traveler Paris appeals as the mecca of the artistic world, there every avenue, every street corner, is a veritable park; there Americans spend their millions and adorn their homes with the artistic and the beautiful of the most beautiful city in the world.

HAZEN S. PINGREE.

By the death of Ex-Gov. Pingree Michigan has lost a remarkable man. From a business standpoint he was very successful, having built up a large shoe manufactory from nothing. As mayor of Detroit four successive terms he gained his greatest reputation, and it was his record here that put him in the governor's chair.

He reduced telephone rates, put wires underground, settled strikes, and compelled street railway companies to reduce fares to three cents. He is perhaps best known because of his efforts to relieve the poor. He gave them seed and the privilege to use vacant lots for the purpose of raising potatoes.

When Pingree, as governor, endeavored to carry on the war against large corporations, which he had inaugurated as mayor of Detroit, he found such a determined opposition that he was only partially successful. His efforts to relieve the farmers of taxes he believed should be borne by the railroads, made him very popular with the masses, but the legislature were not so easily influenced or controlled, and because of his inability to accomplish his purpose, he left the governor's chair and the republican party with the bitter feelings of resentment and reproach.

It is said that his trip to Europe was in the interests of his native state, and that his gigantic scheme was nearing completion when death overtook him.

He has left many reforms for which the masses will ever be grateful, and he will be remembered by them as the great commoner of Michigan.

The American Kitchen Magazine has an article on "Variety in Bread," which will be of service to every housekeeper. The writer argues that a variety in bread is more conducive to health, than variety obtained by use of pastry. In this the Southern fashion of five kinds of bread seems superior to the Northern fashion of five kinds of pies and cakes.

Wireless telegraphy is to displace the carrier pigeon in the United

States navy as soon as the system can be installed. Sen. Marconi asks the modest sum of \$12,000 to place his apparatus on board one ship, which seems to naval authorities a trifle high, as the cost of the apparatus is less than \$100.

The recollections of an electrocuted man, is a rather startling title to a contribution from a French scientist. Doubtless his description of his sensations will not be disputed or questioned, which is a distinction enjoyed by very few scientists.

New England comes back at us with a type-casting machine which casts 60,000 letters in an hour, as against 3,000 by our improved machines.

The vicious horses are enjoying (?) their Fourth in advance at the Fair grounds. Prof. Gleason gives them fire crackers with a lavish hand.

MEN'S NIGHT SHIRTS

Any man who is looking for a little better night shirt than he has previously bought should certainly call and see ours that we offer at 50c, 75c, \$1.00. We also have an unlaundered white shirt at 50c which is the very best shirt for 50c that was ever sold—many men buy them in half-dozen lots. Our 50c.

balbrigan shirts and drawers for boys and men are great values. We have men's balbrigan union suits at \$1.50 that are very popular.

Liberal Party Split in Two.

London, June 21.—In a remarkable speech at the dinner of the National Reform Union last night the Rt. Hon. Herbert H. Asquith completed the disruption of the liberal party arising from differences over the Boer war. The great party of Gladstone's day is now hopelessly divided, one wing being led by Sir Henry Campbell-Bannerman, John Morley and Sir William Vernon Harcourt, and strongly opposed to the government's policy in South Africa. The other wing, which has become known as the "Liberal Imperialist" party, upholds the policy of the war and defends the annexation of the Boer republics.

Attack On the Crown Prince.

Berlin, June 21.—While the Crown Prince Frederick William was on his way from Minden to Bonn, a drunken individual approached his carriage at Bochum, Westphalia, yesterday and aimed a blow with a stick at the window at which the crown prince was seated.

The individual, who described himself as a clerk, was arrested. He said he merely desired to see the crown prince more clearly.

Want Spy System Stopped

New York, June 21.—The Italian consul, Giovanni Branchi, has received the following letter from a committee of English-speaking anarchists, who held a meeting here this week:

"To the Italian Consul: Knowing the temper of the Paterson comrades, we, the English-speaking anarchists of New York and vicinity, would earnestly request you to desist from employing spies any further. We hear that if persisted in this may lead to bloodshed, which we deplore.

Chamberlain Has Gout.

London, June 21.—In a letter to the secretary of the Midland Conservative association, excusing his non-appearance at a luncheon to be given in his honor, Joseph Chamberlain writes that his doctors will not allow him to move. A slight attack of gout in the tendons of the knee renders it impossible for him to stand or sit upright. Chamberlain proposes to make a trip to the United States in the autumn, and while there he will visit his wife's relatives, the Endicotts.

Monument to the Elector.

Kiel, June 21.—A monument to Frederick William I., "The great elector," was unveiled in the Naval Academy park with much ceremony and in the presence of the emperor and empress. His majesty made a speech, holding up the career of the elector as an example to the present generation. The emperor and empress afterward conversed with some officers and men who had just returned from China.

SUGAR WATER.

The Beautiful Indian Legend of the Maple Tree.

Mek-see, the squirrel red, When the winter's frost had fed, Sporting in the leafless trees, Glad of softer sun and breeze, Saw beneath him, creeping slow, Wung-bah-sh, with beaded bow, Sitting upright on the limb, Mek-see accosted him:

"Shoot not, Wung-bah-sh, I pray, Till you hear what I would say. Then the Indian, had obeyed, Dropped his arrow's point and said, "Speak out quickly, Mek-see; Then your spirit I will free." "Nay," the squirrel cried; "not so! Pluck your arrow from the bow. Promise safety unto me To all my family; Then a secret I will tell That will serve you long and well. Every spring shall you rejoice When you hear the squirrel's voice. For much wealth as you shall find, Spare, then, all the squirrel kind."

Long the Indian boy stood still, Fingering his arrow quill. Then he said: "So let it be, Wizard squirrel! I agree."

Then spoke Mek-see and told Of the sweets the maple holds; How the sap, when frosts depart, Purses from the maple's heart, Climbs to every twig and bud In a sweet and crystal flood. Then he told the lad beneath How to pierce the maple's sheath, How to shape the elder spout, How to duct the maple's quill; How to catch the dripping juice, Boil and stir till fit for use.

Wung-bah-sh, all eager, went To his wretched mother's tent, Took a little sap with haste "Nay, a little maple juice, Then he pierced the tree's gray skin, Drove his slender spout in And sat watching as the tide Tinkled on the vessel's side. Next he took his limpid spout, Set it o'er the coals to boil; Then he took the maple's quill, Like the water of the brook. Added meat, with almond desire Not to waste the meat entire, Left it simmering o'er the flame While he sought for other game.

When the Indian lad returned, Lo, within his kettle burned, Golden hue and thick and sweet, Sirup fit for gods to eat! Ever after that, 'tis said, Safe was every squirrel's head, Not an Indian raised his shaft When the furry people laughed. —Arthur Burnaby in Forward.

Not Afraid to Soil His Clothes.

A young man who is now well up the list of high salaried officers of a big manufacturing company said several days ago that he owed his first opportunity to show his ability to the fact that he was not afraid to soil his clothes. He was one of half a dozen young men just graduated from scientific schools who entered the shops of this company as students.

They were expected to show that they were practical workmen, but most of them preferred theory to practice. The manager of the company was a self taught man, and he didn't take much stock in scientific schools.

The young man who has succeeded took his measure accurately, and putting on old clothes, went to work in the shops. Whether by accident or design, he was noticed by the manager one day stretched out on his back under a heavy casting with a hammer and cold chisel in his hands working away as if he had no higher ambition. A week later the manager summoned him to the office.

"Didn't I see you under the casting several days ago?" he asked.

"Yes."

"Well, I find that we have a vacancy on our staff now, and you may fill it if you choose."

The young man did choose, and his progress has been rapid. He does not have to soil his clothes now to prove his ability.—American Boy.

Game of Gathering Sticks.

The ground is divided into two equal parts, with a small goal marked off at the rear of each part, in which six sticks are placed. Each player who reaches the enemy's goal safely may carry one stick back to his own goal and may not be caught while carrying it back. If caught before reaching the opposing goal, he must remain a prisoner in the goal until touched by one of his own side. Neither may be caught while returning. No stick may be taken by a side while any of its men are prisoners. The game is won by the side gaining all of the sticks.

The Boer's Youngest Prisoner.

The manly little fellow whose portrait appears in the accompanying illustration is said to be the youngest British prisoner taken by the Boers. He was captured, together with his father, mother and two sisters, in a raid

on his home, Dreifontein farm. His father, being sick with fever, was placed in a cart, but his mother, his sisters and himself were compelled to walk a distance of 72 miles between 4 in the afternoon and dusk, which was a pretty hard task for a boy of only 7.

BRODHEAD

Brodhead, Wis., June 21.—So many inquiries have been received concerning Harry Kildow since he went to Elkhart, Ind., that we have decided to publish the following taken from a private letter: C. G. Conn says: "I consider his cornet playing as something simply wonderful." Prof. J. Franclyn Boyer says: "Harry is a bright boy and if he continues as he has thus far his future is a bright one."

J. C. Penn, county superintendent of schools, has made application to County Clerk Lyman for a license that will be issued at Janesville to wed Miss Mary Josephine Jones of Clinton. The event will be celebrated on Thursday, June 27 at the home of the young lady's parents. She is the daughter of W. W. Jones, a well-known attorney of Clinton.

A special from LaPorte, Ind., to the Evening Wisconsin, has the following: John Albertie and Miss Ida Smith of Evansville, Wis., arrived here last night and securing a marriage license, were joined in wedlock by Rev. R. H. Hartley, pastor of the Presbyterian church. Mr. and Mrs. Albertie left for a wedding trip to the Pan-American exposition, Wisconsin couples are finding LaPorte and Michigan City a mecca for romantic marriages.

TOBACCO KEEPING FARMERS BUSY

Transplanting Is at Its Height—Plants Are Well Advanced and Are Doing Splendidly.

The transplanting of tobacco was begun quite extensively last week is at its height now and the present is a very busy time with the farmers. Notwithstanding the backward spring the plants are well advanced and are doing splendidly, the weather having been ideal for rapid growth.

While it is a busy time for tobacco growers the market is quiet and will be dull until the first of September. John Souham has sold his entire packing of 30 cases of high grade leaf.

Fisher & Fisher have filled their own warehouse and are now sorting in Green's warehouse on Mineral Point avenue. About half a dozen sorting rooms are still running.

PLANS OF THE W. C. T. U.

Local Society held a Very Pleasant Meeting Yesterday.

The W. C. T. U. held a very pleasant meeting yesterday afternoon in the Congregational church. The first part of the session was in the form of a Flower Mission program. Music, vocal and instrumental, sketches of the work, poems and stories.

The work of the year was planned along department lines. The following are only two of the plans: Next Sunday the union will leave gifts of fruit and flowers at the county institutions and will treat the inmates to a pretty program. Offerings of flowers will be gratefully received by Mrs. Van Aiken, 202 S. Jackson street.

A group of fresh air children will be taken care of during some of the hot days of July or August.

Miss Jessie Echlin Engaged

While no formal announcement has been made it is now an open secret that Miss Jessie Echlin, of this city, is betrothed to L. D. Brode of Los Angeles, Cal., and that she is returning home from her visit to the Pacific slope with the intention of returning to take up her permanent residence in California. Miss Echlin leaves Los Angeles today and is expected to arrive next Wednesday. It had been her intention not to have her engagement announced until she reached home, but the truth leaked out. Mr. Brode, who was physical director and instructor in the manual training department at the high school a few years ago, is now engaged with his brother in the hardware business in Los Angeles.

Miss Julia Echlin, who went to California for her health and who will remain there for some time, is improving rapidly and her relatives are happy in the receipt of the most favorable reports concerning her condition. California is said to be working wonders for her.

Flag Raising Today

from the bazaar which was a success financially and socially.

The entertainments each evening were first-class, much credit being due to F. H. Bemis for the excellent production of "The Choirmaster's Troubles," also Prof. Nicholas in the Gypsy fortune teller. The children in the two programmes made a distinct hit. Friday, the closing night, was especially interesting, on which occasion Mrs. Chas. Ball of Monroe, a fine soloist, rendered some choice selections, accompanied on the piano by Prof. J. Foote, Edgerton.

Miss Mabel Taylor, who never fails to please the audience, was fully up to her usual high standard as a reader, also, Joe Fisher in his catchy humorous recitations.

The closing exercises were conducted by Mr. John Ryan who did himself credit as an auctioneer by converting sofa pillows into cash.

Mrs. Chas. Ball was the guest of Mrs. A. J. Snyder during her stay in the city.

Miss Chessie Smiley was in town last week attending the bazaar and visiting her many friends.

It was unfortunate that the Board of Education did not secure Miss Minnie Wood to take charge of the primary department in the Footville school this year. Miss Wood has accepted a position at the Edgerton, Wis., graded school.

THE CHOIR HOLDS AN IDEAL PICNIC

Today would scarcely be entitled to be called an ideal day yet in spite of the weather an ideal picnic was held. Members of the chorus choir of the Congregational church were the picnicers and instead of eating their elaborate picnic supper out-of-doors among crawling bugs and all sorts of things supposed to be the especial aversion of the fair sex, the singers transformed the parlors of the Congregational church into a picnic ground. Of course if the day had not been rainy bugs and flies would have been deemed a necessary accompaniment for a picnic but with the "When God sorts out the weather and sends rain, why rain's my choice" philosophy of James Whitcomb Riley, the members of the choir had a much jollier time in the church parlors than would have been possible anywhere else. After an afternoon of merry-making a splendid supper was served.

"Pearl of Savoy" Tonight.

A good sized audience enjoyed an evening of comedy at the Myers Grand last night. Miss Marie Nielsen carrying off high honors in a double bill, "The Little Rebel" and "The Child of the Regiment." During the week she has won great favor with her bright, dashing ways and the audience was pleased to see her in a leading part. Several curtain calls were given. Tonight the company will repeat "The Pearl of Savoy" by request and tomorrow afternoon there will be a special matinee for ladies and children. Admission, ten cents to all parts of the house.

The marriage of Miss Mary E. Bailey and John P. Heffernan will be solemnized at St. Patrick's church on Wednesday morning, June 26 at 7:30 o'clock.

DEATH FOR THE USELESS

A Startling Plan for Racial Improvement

BY A DENVER PHYSICIAN.

Prevention of Disease—Proposes Legislative Control of Marriages on Basis of Physical Fitness—Society and Degeneration Are the Doctor's Themes.

Denver, Col., June 21.—Removal by death of useless and harmful persons and government supervision of marriages are among the suggestions of Dr. Charles Denison, A. M., of this city, that have electrified medical experts. Dr. Denison has made a life study of the degenerate results of defective heredity. An epitome of the plan advocated by him, in part, follows: Governmental provision for a salaried investigating commission on hygiene and racial improvement, to investigate these three problems and report the form of laws to be submitted to the several state legislatures for possible enactment.

1. Legislative control of marriage on the basis chiefly of physical fitness, with the object of racial improvements and future prevention of disease, especially tuberculosis; the education of a licensing class from which to choose boards of control in the separate states; popular education of the young before graduating from advanced schools.

2. Possible limited use by the state of painless death, without the knowledge of the dying, in order to rid society of the useless and harmful lives.

Dr. Denison says: "The social, commercial and manufacturing phases of our civilization favor indoor and inactive modes of life, which are detrimental to successful physical development, and inheritance propagates the depreciated life force. The independent self-supporting of women removes from the possibility almost of successful motherhood of a considerable portion of the gentler sex, through decrease in matrimony and exhaustion of vital powers. The present unaided efforts of natural selection should be supplemented by warning the young before marriage. The masses ought to be educated physiologically that the laws of heredity may be understood, that physical development and mental strength may be appreciated, and that the responsibilities of parentage may be recognized."

Frick a Museum Collector.
New York, June 21.—Henry S. Frick has become interested in scientific projects through his son, and when he sailed on the Oceanic with his family it was for a scientific object. In his new role he becomes a patron of the Carnegie museum in Pittsburgh. The plan which he is backing is to be carried out by his son, Childs Frick, 13 years old, and Frederick S. Webster, head of the department of taxidermy of the Carnegie museum, who also sailed on the Oceanic.

Sugar Industry in Arizona.
Phoenix, Ariz., June 21.—The first beet sugar factory to be established in Arizona is to be placed at Phoenix, and the initial attempt made at beet culture in the extreme southwest. Plans have been completed to secure a 1,000-ton factory and refinery to be built here by New York capitalists, who are interested with the Oxnard company, which controls half a dozen plants in California, Colorado, New Mexico and Utah.

American Flag Over Navassa.
New York, June 21.—Four men have landed here from Navassa Island. Before leaving it they hoisted a large American flag over the island, which, until 1893, was the only United States possession in the West Indies, and that flag will be an efficient guardian of the tall rock at the entrance to the Windward passage until persons with right to do so go back and claim it.

Land of Golden Promises.
New York, June 21.—Francis A. Bates has returned to the city, and is staying at the Waldorf-Astoria, after an extended trip to the Indian Territory, where he says are to be found the greatest deposits of mineral wealth, the most fertile agricultural lands, the grandest forests, and the most beautiful streams on the American continent.

Colorado's Melon Crop.
Denver, June 21.—This spring's cantaloupe planting in Colorado is the heaviest in years as a natural result of the great demand for Rocky Ford melons. Last year 2,500 acres were devoted to growing these melons and nearly 800 car loads were shipped out of the state.

Signs Rapid Transit Bill.
Harrisburg, Pa., June 21.—Gov. Stone this morning signed the two supplemental rapid transit bills which had passed the house yesterday afternoon.

Bryan On a Trip.
Chicago, June 21.—W. J. Bryan and his family spent part of the day in Chicago. To a representative of the Western Newspaper Union he said that he had not been instrumental in aiding the Merriweather convention in Missouri. He said that he never heard that the mayor of Chicago was a candidate for the presidential nomination, but frankly endorsed the Republican candidacy of Senator Hanna.

HIGH CLASS GRADUATES.

Ann Arbor Gives Diplomas to 734.
Ann Arbor, Mich., June 21.—There were diplomas given to 734 graduates at the fifty-seventh annual commencement of the University of Michigan. The most prominent feature was the appearance of the senior medical class in caps and gowns, while the men in the senior literary class refrained from adopting the Oxford costume. The address was delivered by Dr. Albert H. Hart, professor of history in Harvard University, who took for his subject, "The Practical Man."

Thirty-third for Cornell.
Ithaca, N. Y., June 21.—The thirty-third annual commencement of Cornell University was held in the armory before a large audience. The class of 1901 assembled on the green and marched in a body to the hall, where the exercises were opened with music, followed by prayer, after which the degrees were conferred by President Schurman. There were 366 candidates for the first degrees.

Wisconsin Gives 297 Diplomas.
Madison, Wis., June 21.—The largest class of graduates that ever finished the course at Wisconsin together, 297 in all, received their degrees and diplomas. The commencement exercises closed in the evening with the alumni ball. Armory Hall, in which it was held, was gorgeously decorated for the occasion with cardinal flowers and bunting.

Northwestern Turns Out 460.
Chicago, June 21.—The forty-third annual commencement of Northwestern University was held last night at the Auditorium, nearly 5,000 students and their friends filling the seating capacity of the theater. The graduating class numbered 460, one of the largest in the history of the institution.

KILLED BY LIGHTNING.

Three Dead as Result of Storm in Indiana.

Indianapolis, Ind., June 21.—Three persons were killed and several injured by lightning during a severe electrical storm which passed over Indiana last night. The dead are: Bert Hathaway, Idaville, Ind.; Grace Larkin, 16-year-old daughter of Harvey Larkin, Riley, Ind.; Ira Smith, Youngstown, Ind. Injured: Henry Goodlove, Idaville; stunned; Mrs. James Langdon, Kokomo, Ind.; paralyzed by lightning; James Parsons and son, Kokomo; terribly injured by lightning. The storm took on cyclonic aspects at several places. At Marion the First Presbyterian church was struck by lightning and badly damaged; James Rowan's saloon, near the Soldier's Home, was struck and partly destroyed. Five men who were in the saloon were knocked senseless. Marion, Ind., June 21.—A very heavy rain and thunderstorm passed over this part of the state last night. Crops were badly damaged; telephone and telegraph service was severely impeded. Lightning struck the Methodist Episcopal church, doing considerable damage, also partly destroying a saloon near the soldiers' home, in which five men were knocked unconscious for several minutes, but recovered. The railroad tracks were buried under debris and street car traffic temporarily suspended.

To Start for Canton July 2.
Washington, June 21.—If the improvement in Mrs. McKinley's condition continues the President will accompany her to their home in Canton, leaving Washington July 2. It is the intention of the President to remain there practically throughout the summer, returning to Washington occasionally as the accumulation of public business requires.

DOZEN PASSENGERS INJURED

Pennsylvania Train Ditched by a Broken Axle.

OTHER RAILROAD ACCIDENTS.

Two Killed in a Wreck on the Norfolk & Western and Cars Burned—Railroad Bridge Collapses on the Dry Fork Line, Killing Three.

Sharon, Pa., June 21.—The Pittsburgh nver on the Pennsylvania railroad was ditched one mile south of Transfer late in the afternoon, caused by the breaking of an axle on the locomotive, and about a dozen passengers were slightly injured. Miss Nellie Smith of Greenville was pinned under one of the cars, and a hole had to be chopped through the side of the car before she could be released. She was badly cut about the head and face. The train ran half a mile after the axle broke before it left the tracks. All the passengers were thrown from their seats into a heap. That none were killed is miraculous, as the whole train, consisting of four cars, turned over on its side while running at high speed.

Three Men Killed.
Cumberland, Md., June 21.—Three men lost their lives and a dozen or more were badly hurt by the collapse of a railroad bridge and the wrecking of a work train on the Dry Fork railroad near Hendricks, W. Va. The dead are: William Booker, master mechanic, aged 50; W. D. Crawl, fireman; laborer named Morrison.

Two Killed in a Wreck.
Richmond, Va., June 21.—In a work-train wreck on the Norfolk & Western railroad near Tazewell, James Pruett and Beverly Kinder were killed, and five other men badly injured. Nine cars were piled up and burned.

Boiler Kills an Engineer.
Kansas City, Mo., June 21.—The boiler of a Chicago & Alton locomotive pulling an incoming passenger train exploded at Blue Cut, fifteen miles east of here, killing the engineer, George Gerew, and fatally injuring the fireman, Julius Crowley. None of the passengers was hurt.

WARSHIP BRAVES HELL GATE.

Captain Manny Takes the Massachusetts Successfully Through.

New York, June 21.—Captain Henry N. Manny, U. S. N., took the battleship Massachusetts through Hell Gate on the way to Newburyport, and the result was a general order from the Secretary of the Navy that no battleships shall ever go through Hell Gate again unless by express authority of the Department or in great emergency. The passing of the mammoth fighting machine through the dangerous waters of Hell Gate proves conclusively that in case of hostilities with a foreign power a battleship of the same draught as the Massachusetts, if she passed the fortifications of Willet's point and Fort Schuyler, could repeat the performance of the Massachusetts.

College Faculty Resigns.

Hillsdale, Mich., June 21.—At a meeting of the trustees of Hillsdale College the resignations of the entire faculty were presented and accepted. Subsequently all but President Mosher, his wife, who was a teacher; Professor Munson, professor of chemistry; Mrs. Copp, a principal, and Professor J. W. Dodge, professor of vocal music, were asked to remain. It is rumored that J. W. Manch of Chicago is to be the next president. A class of twenty-three was graduated from the college today, Rev. Nehemiah Boynton of Detroit delivering the address.

Bars Women from Court.

Memphis, Tenn., June 21.—Women cannot practice law before the supreme court of Tennessee, according to a decision just rendered, and the question as to whether or not women are entitled to practice in the lower courts is raised by the decision.

TEXAS MAN HUNT AT END

Leader of Mexican Outlaws Run to Earth.

GREGORIO CORTEZ LOCATED.

He is in a Dense Thicket Several Hundred Acres in Extent—Special Train with Bloodhounds Goes from San Antonio to Assist in His Capture.

San Antonio, Tex., June 21.—Gregorio Cortez, the alleged slayer of Sheriff Morris and Glover, has, it is believed, been surrounded in a dense brush-covered thicket covering hundreds of acres, within a few miles of Cotulla, ninety miles from here. The thicket is now being hunted with bloodhounds. Up to the present time the man hunt, as it is called here, has resulted in the killing of three Americans and three Mexicans. Six Mexicans, one of them a woman, have been wounded, and nine captured. The casualty list is as follows:

June 12—Sheriff W. T. Morris of Carnes county, in attempting to arrest Mexicans charged with horse stealing, was killed and one of his assailants wounded.

June 14—In attempting to arrest the alleged slayers of Sheriff Morris in Gonzales county, Sheriff R. M. Glover and Constable Henry Schnabel were killed and three Mexicans wounded, one being an aged woman, who was shot through both hips. The other two were men and are shot through the legs. These three are now in the San Antonio jail and stubbornly refuse to talk.

June 15—At Ottine one Mexican was killed while resisting arrest.

June 16—A Mexican was killed at Belmont and another wounded while resisting arrest.

June 17—A party of rangers under Lieutenant Sanders, near Benavides, in a running fight killed one Mexican, wounded another, and captured a third.

Five hundred men have been engaged in the man hunt since last Sunday. They are led by sheriffs of twenty counties, and several companies of Texas State Rangers are assisting. The leader of the Mexican outlaws is Gregorio Cortez, who has been closely pressed for four days. Last night Cortez was seen by his pursuers, and several hours later his horse was found, badly exhausted and abandoned. The trail led direct to the great thicket. A special train left San Antonio last evening with an additional posse and a large number of bloodhounds, to be used in tracking Cortez through the thicket.

FARMHAND ATTEMPTS MURDER

When Cornered Burns Himself to Death in a Haystack.

Bloomington, Ill., June 21.—After committing a murderous assault upon John Young last evening, T. J. Reese, farm hand, crawled under a haystack and set fire to it, perishing miserably by his own hand. The tragedy occurred at Brookaw, a small settlement 10 miles east of here. Reese had been away from this vicinity for two years, but returned with pockets bulging with revolvers. He entered the home of Samuel Rhodes, a prominent farmer, and ordered him to follow him. He forced the farmer to precede him a half mile, telling him that he proposed to make a target out of him. Rhodes succeeded in dodging Reese and escaped. Reese then went to the home of John Young and began firing at the various members of the family. Young was shot in the abdomen twice and will probably die. The others escaped his shots, due to poor marksmanship. He then started to kill off some other members of the community, but the farmers organized and attempted to capture him. Being cornered, Reese sought the haystack. Reese had previously informed some of the farm hands that he wanted revenge because others had taken women for wives that he had himself selected for matrimony.

POVERTY AS CAPITAL.

An Oshkosh Banker Tells of Poor Man's Advantages.

One of the leading bankers of Oshkosh made the remark yesterday that poverty opens the avenue to success and that in many cases it operates as a blessing rather than a misfortune. Adversity develops the talents of men, and to its influence we can often trace the discovery of genius. Men without talent are the men who are needed to direct the affairs of the world.

But no matter what a man's walk in life, or what the vocation, only half the possibilities are accomplished if sickness raises an obstacle. The biggest percentage of human ills comes from the liver. Weakness in the liver deranges the kidneys. Stomach trouble, biliousness, backache, dizziness and a general breaking down result. If you take Dr. Crane's Quaker Tonic Tablets you help the liver; the liver purifies the blood; health comes, and the patient can live up to his capabilities. If your druggist doesn't sell Quaker Tonic Tablets write the Penn Drug Co., Oshkosh, Wis., for free sample and for valuable booklet, "Quaker Tonic Tablets."

Death Suggests a Murder.

Sheboygan, Wis., June 21.—Ernest Urner, a farmer, was found dead today under circumstances which denote foul play. Urner was hanging out of a wagon, his head under a wheel and his neck broken. The lines attached to the horse were cut. The district attorney will investigate.

Hutsenpillar Takes New Post.

Athens, O., June 21.—The Rev. S. D. Hutsenpillar of San Francisco was today elected by the trustees president of the Ohio state university at this place for a term of three years, in place of President Super, resigned.

Half the ills that man is heir to comes from indigestion. Burdock Blood Bitters strengthens and tones the stomach, makes indigestion impossible.

Accidents come with distressing frequency on the farm. Cuts, bruises, stings, sprains. Dr. Thomas' Eclectic Oil relieves the pain instantly. Never safe without it.

"Little Colds." Thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds, cures big colds too, down to the very verge of consumption.

Itching piles? Never mind if physicians have failed to cure you, Try Doan's Ointment. No failure there. 50 cent, at any drug store.

Mothers write us that they have solved the problem of keeping their children well. Give them Rocky Mountain Tea each week. A blessing to mother and child. Smith's Pharmacy, Kodak agents, Next P. O.

WISCONSIN DAY AT BUFFALO EXPO.

State Will Take Charge of Building July 27—Gov. La Follette Will Preside at Exercises.

Milwaukee, Wis., June 21.—The Wisconsin board of the managers of the Pan-American exposition has selected Willet M. Spooner of this city to present the Wisconsin building at the exposition to the people of Wisconsin on behalf of the board of managers. Governor R. M. La Follette representing the people of the state will receive the building and transfer it to the officials of the exposition. Director General William I. Buchanan will receive the building in behalf of the exposition management.

These exercises will be held on Wisconsin day, July 27, the date selected by Governor La Follette for the purpose. The governor and state officials will go to Buffalo on a special train, leaving Madison on July 26. The train will also accommodate all Wisconsin people desiring to avail themselves of the opportunity to visit the exposition on Wisconsin day, and efforts will be made to have a large number from this state present at that time.

The special train will remain in Buffalo until the party returns, probably for two or three days. Arrangements will be made for special excursions to Niagara Falls and rides through the gorge on electric cars, as well as visits to other points of interest in the city of Buffalo.
